NGUYEN NGOC THUY

SENIOR UI/UX DESIGNER | UX ENGINEER | AI-ASSISTED WORKFLOWS

Hanoi, Vietnam (Open to Remote) · +84 982840613 · ngocthuy.mv@gmail.com

PROFESSIONAL SUMMARY

Senior UI/UX Designer and UX Engineer with 18+ years of experience designing and building enterprise web and mobile products, taking complex features from business requirements and user flows to high-fidelity UI, implementation and UX review.

Lead owner of a production Design System for 12 years (97 design tokens, 33 reusable components, a 150-icon library and 19 brand themes powering 39 product modules), after previously building the UI design system at eXo Platform.

Sole UX/UI and CSS specialist for a team of 9 developers and 3 QA engineers, using AI tools (ChatGPT, Gemini, Cursor) daily to accelerate ideation, UX copy, prototyping and front-end implementation.

A strong front-end foundation (HTML5, SCSS, Tailwind CSS, Angular, React Native) ensures realistic, developer-ready handoffs that ship as designed, with WCAG accessibility built in.

CORE SKILLS

AI-ASSISTED DESIGN	ChatGPT · Gemini · Cursor · AI-Assisted Ideation & Wireframing · Prompt-Driven UI & Code Generation · AI-Generated UX Copy & Specs
UX / PRODUCT DESIGN	UX Architecture · User Flows · Journey Mapping · Information Architecture · Interaction Design · Wireframing · Prototyping · Responsive Design · Accessibility (WCAG)
DESIGN SYSTEMS & TOOLS	Figma (Auto Layout, Components & Variants, Variables, Interactive Prototyping) · Design Tokens · Component Libraries · Style Guides · Multi-Brand Theming
FRONTEND	HTML5 · CSS3 · SCSS · LESS · Tailwind CSS · JavaScript (ES6+) · Angular · PrimeNG · React Native · Ionic
COLLABORATION	Product Requirement Analysis · PO / BA / Developer Collaboration · Design Handoff · UI/UX QA · Agile / Sprint Workflows

WORK EXPERIENCE

SPECTOS ASIA

Senior UI Development & UX Specialist · 2014 – Present

- Lead owner of the company Design System since 2014: 97 SCSS design tokens (color, typography, spacing), 33 reusable components and elements, 13 mixins, a 150-icon font library and 19 brand/layout themes, powering 39 product modules.
- Sole UX/UI and CSS specialist for a cross-functional team of 9 developers and 3 QA engineers; top contributor to the UI codebase with 3x more style commits than any other team member.
- Integrate AI tools (ChatGPT, Gemini, Cursor) into the daily workflow for ideation, UX copy, validation messages, prototyping and SCSS/component implementation, keeping design and UI delivery ahead of sprint demand.
- Design end-to-end UX/UI for complex enterprise workflows, from requirement analysis and user flows to high-fidelity UI, implementation support and UI/UX review, across Cockpits, Dashboards, Surveys, Tickets, Tracking, Panels, Campaigns and Data Digitalization.
- Delivered the UI for the Mail Agent app (React Native for iOS, Android and Web) used by European postal operators: screens, reusable components (date-time picker, modals, alerts, inputs, force-update prompt), theme styling and localized App Store screenshots in 4 languages (EN, DE, FR, NL).

- Migrating the existing platform UI to a new frontend stack (Angular 21, Tailwind CSS 4, PrimeNG), rebuilding current screens and design tokens on the new codebase, starting with the app shell and Tickets module before rolling out to all product modules.
- Design complex interactions including data mapping, global placeholders, template management, workflow configuration, forms, validation and data-intensive interfaces.
- Apply WCAG accessibility principles to interaction patterns, forms and navigation, and review implementation with developers to close gaps between the intended experience and the shipped product.

EXO PLATFORM

Team Leader – UI Web Development · 2007 – 2014

- Led and mentored a UI development team across enterprise collaboration products, managing delivery, code quality and frontend standards.
- Built the UI design system and reusable component guidelines, establishing UI consistency practices across multiple products.
- Worked closely with Product Leaders and Tech Leads to translate product requirements into practical UI and frontend solutions.
- Created documentation and knowledge-sharing practices to support scalable UI development and consistent implementation.

EDUCATION & PROFESSIONAL DEVELOPMENT

Bachelor of Information Technology · Vietnam National University – Ho Chi Minh City

Leadership Certificate · CFVG (French-Vietnamese Center for Management Education) – National Economics University

Pragmatic Scrum · Agile Training Course

UI/UX Design · MindX Technology School

- Figma (Auto Layout, Components & Variants, Variables, Interactive Prototyping), user research, wireframing and design systems.

LANGUAGES

English · Working proficiency; daily written collaboration with European teams (Jira, chat, documentation)
